

AANYA JAIN

Summary

Aspiring Data Science Intern with strong skills in Python, Machine Learning, and NLP. Hands-on experience in building AI-based projects and performing data analysis using Pandas and NumPy.

Education

B.Tech in Computer Science & Engineering, IPS Academy, Indore (Expected 2027)

Technical Skills

Languages: Python, Java, C

Libraries: Pandas, NumPy, Matplotlib

Concepts: Machine Learning, NLP, Data Analysis

Tools: VS Code, Google Colab

Projects

RAG-Based AI System: Developed a retrieval-augmented generation system improving response accuracy using external data.

Chat Analyzer: Built a Python-based chat analysis system performing sentiment analysis and extracting insights.

Internship

Python Intern at SGSITS & Impetus Technologies (May 2025 – July 2025)

Worked on data analysis using Pandas and NumPy, built automation scripts, and performed data visualization.

Strengths

Serene, Multi-tasking, Teamwork
